Under this heading appeared a leading article in the Toronto Globe of the 50 Tons Rough Barley 4th instant, in which exception is taken to the character of the vessels which have been subsidized by the Dominion Government to carry mails, passengers Notice of Copartnership. and freight between the ports of San THE UNDERSIGNED have enter Francisco and Victoria. The Mail, a few days subsequently, published a reply to the Globe's article, vindicating the action Clinton, Nov. 18th, 1872, of the Government in this matter, and calling in question the correctness of the LL PARTIES INDESTED to the role of the late Joseph L. Fmilh are requested a inmediate payment; all bills remaining unpud of lat January, 1873, will be placed in Court for colon, and all parties having caims against the cotat please send them to the underdigned for bayment.

MRS. S. SMITH, assertions made by that journal. We are prepared io say that in the main the confirents of the Globe are correct, and that the arrangement which has been made by the Dominion Government with Clinton, Mar, 18th, 1872. the ewners of the steamship Prince Alfred, has so far given anything but satis-faction to the people of this Province. The inferior character of the ship, as THE HUSINESS OF THE HASTINGS ON THE HASTINGS OF THE HASTINGS O regards the accommodation she possesses for passengers and freight, is not what November 20th, 1872. the people so much complain of, as the length of time she consumes in making the trip from pert to port. Admitting MR . MARTIN'S DAROING ACADEMY Gymnasium Hall, View street, will open a that the Government advertised, as the Mail states, in prominent papers in Mon-treal, Quebec, Halifax, London, Liver-pool, New York and San Francisco, for tenders for the performance of a semi TUESDAY AND FRIDAY EVENINGS uring the season, cemmencing at 6 o'clock P. two lowest tenders there was a difference of \$71,000 per annum, and that for this and other reasons, it was deemed prudent to accept the lowest tender, that does not excuse the Government for having entered into such a contract without any stipulation as to the length of time the shipshould be allowed to consume on her upward trip from San Francisco to this city. We believe we are correct in saying that the only condition as to time by which the steamship company is bound, which the steamship company is bound, For Freight or Passage apply to R. BRODRICK, & CO., Wharf street and so long as she does that, no matter how slowly she may crawl along on hervoyage between San Francisco and Vic- St. Andrew's and Caledonian toria, passengers and consignees must put up with the inconvenience and make the best they can of a bad bargain. The one object above all others that British Columbians desired to accomplish by the payment of a liberal subsidy to a line of steamships plying between the ports above named, was to secure greater regularity and dispatch in the transpor-tation of mails and merchandize, and, if possible, a reduction in the rates of pase previously charged to p ssengers on ST. that route. In this they have been most completely disappointed. In reality they have gained nothing by the subsidy Preights are no less, fares are no less, and there is just as much uncertainty when the steamer leaves San Fransee as to when she may be looked for here, as there ever was. This uncerrejudicial to the commercial interests of this country, very annoying to business men, and ever a cause of anxiety to per- The Dominion Government

board. Any steamship that cannot make

the run of 750 miles between San Fran-

cisco and Victoria in three and a-half

days on an average, whichever way the wind blows, is totally unfit for the ser-

vice, and any money given to such a ship

by way of sabsidy might almost as well

be thrown into the sea. Had the Domin-ion agent, as he should have done when

arranging terms with the steamship company, made it a condition that the

voyage up should be performed within

three and a-half or four days at the very

outside under a penal y of forfei-ture of a certain sum per hour for every hour that she was behind time, whether the wind was fair or foul, we believe the Prince Alfred or the Idaho could easily make the voyage in that lable advantage to such of our people as are engaged in commercial pursuits. No such stipulation, however, was made, few tons of coal per trip a long voyage is preferred to a short one, and the interests of our business men are made en-tirely subservient to the interests of the steamship company. The Globe in describing the Prince Alfred as "an old coal tog," does that vessel an injustice. She is, as the Mail states, "a very strong Clyde-built iron vessel of about 900 tons burden, has good accommodation for passengers and freight, and is in every respect comfortable and safe" Her small-like movements are what people here complain of, and if that were remedied there would be litte other room for fault-finding. It is to be hoped now that this subject has been brought somewhat prominently before the Dominion anthorities, that measures may be taken

GROLOGICAL .- Mr. Walter McOunt, of Montreal, with two assistants, has returned from making an extended geological survey of the making an extended geological survey of the country lying to the north of Lake Temisca-mang through the district around Lake Abitiber, under the auspices of the Geological Survey. The party started in May last and have been engaged in the work for nearly six months. Mr. McOunt states that he found unmistakable indications of mineral wealth is the country surveyed in the shape of copper and iron and has formed a favourable wimpression regarding the soil, which is much impression regarding the soil, which is much better than previously supposed. A change takes place in the geological formation of the country on the head of Lake Temiscamans, is becoming less rocky and rugged as it proit becoming less rocky and rugged as it proceeds northward. Near Lake Abitiber there is large area of fine arable land of clay soil, which is suitable for agricultural porposes. It is also a fine grazing country, being neither barren nor rocky.

The jury then retired for ten minutes, and brought in a verdict of guitty of unlawful entting equal to misdemeaner only.

The prisoner will receive his sentence on Reisay morning.

MANSLAUGHTER.

The next case which appeared on the calen dar was that of an Indian named Ben, who was charged with masslaughter. Mr. Robertson, Instructed by Messrs. Drake & Jackson, appeared for the defendant.

The Attorney General, in opening the case for the Crown, said that it was a case in which the prisoner stood indicted for causing the death of mother Indian, named Jim. The Gets of the case were these; both the da.

FROM ABOVE .-- We take the following from the Guardian of yesterday : The Spruce Co. on Lightning creek have struck a good prospect, and expect to be in the Point Co.'s lead in two weeks. An altercation ocquired near Alexandria, between Isaac, a half breed, and Petu, a Frenchman, in which the latter was cut severely on his head and side with an aze; at one time his recovery appeared extremely doubtful. The steamer Victoria was upon a responsible ministry, and moved to hauled out on the 9th inst., and the next day the river was from over near Soda creek. The sleighing is good from Barkerville to Clinton, but the snow has not fallen to the depth of a foot in any place; abundance of treight is on its way from Yale to Clinton. The Kuriz & Lane machinery was observed by passengers on the stage lying at the fifty seven mile house on the wagon road, in the green timber. J. H Todd is on his way down country en route to Canada for a trip.
